Architects' Working Details: No. 3 (The architects ...

The majority of the time, architects work in an office. There, they meet with clients, draft plans, work on cost estimates, file permit applications with municipal building departments, and help clients set up agreements with contractors. Architects also visit construction sites to check the progress of projects and make sure contractors are building them according to their plans.

Architect Job Description: Salary, Skills, & More

working details. 3 August 2000 By AJ Contributor. The 45 flats are arranged in a three-, four- and five-storey crescent around an open courtyard. They were built by a method known as 'semivolumetric' timber-frame construction; the highly serviced parts of each flat - kitchen, bathroom and lobby - were prefabricated into selfsupporting units and ...

Paul Marvin Rudolph (October 23, 1918 – August 8, 1997) was an American architect and the chair of Yale University's Department of Architecture for six years, known for his use of concrete and highly complex floor plans. His most famous work is the Yale Art and Architecture Building (A&A Building), a spatially complex brutalist concrete structure.

Paul Rudolph (architect) - Wikipedia

The facets of an architect's role are as varied and fascinating as their work; these are professionals who lead the process of creating functional spaces, from concept and design to a full realization of those designs. Architecture is an art that works hand-in-hand with science to design places where people can live, eat, work and play.

What does an architect do? ? CareerExplorer

Including elaborate working details of the methods used in securing the site; the construction of the building; impartial notes on the architect; an opinion of the furnace man; and other interesting and valuable suggestions for those about to select a home.

Architects' Working Details - AbeBooks

Architects use technical and creative skill to design structures that suit the requirements of their clients. As an architect, you'll design new buildings or extensions or alterations to existing structures, and advise on the restoration and conservation of old properties. You may work on individual buildings or on large redevelopment schemes, and your responsibility can extend to the design of the surrounding landscape and spaces.
