The subtitle "A
molecular

approach" is
extremely fitting

for this unique P.
Chem textbook.

Many P. Chem
textbooks (like

Online Library Chemistry A

Atkins et al) start
with
thermodynamics
and

thermochemistry.

However, there is a
problem --

statistical

mechanics is

necessary for any

reasonable modern

understanding of

thermodynamics.

Following up on her acclaimed Teach Students How to

Online Library Chemistry A

Learn, that
describes teaching
strategies to
facilitate dramatic
improvements in
student learning
and success,
Saundra McGuire
here presents
these "secrets"
direct to students.
Her message is
that "Any student
can use simple,

Online Library Chemistry A

straightforward
strategies to start
making A's in their
courses and enjoy
a lifetime of deep,
effective learning."
Beginning with
explaining how
expectations about
learning, and the
study efforts
required, differ
between college
and secondary

Online Library Chemistry A

school, the author introduces her readers, through the concept of metacognition, to the importance and powerful consequences of understanding themselves as learners. This framework and the recommended strategies that

Online Library Chemistry A

Molecular
Approach 2nd
Edition

support it are
useful for anyone
moving on to a
more advanced
stage of education,
so this book also
has an intended
audience of
students preparing
to go to high
school, graduate
school, or
professional
school. In a

Online Library Chemistry A

Molecular
Approach 2nd
Edition

conversational
tone, and liberally
illustrated by
anecdotes of past
students, the
author combines
introducing readers
to concepts like
Bloom's Taxonomy
(to illuminate the
difference between
studying and
learning), fixed and
growth mindsets,

Online Library Chemistry A

as well as to what brain science has to tell us about rest, nutrition and exercise, together with such highly specific learning strategies as how to read a textbook, manage their time and take tests.

With engaging exercises and thought-provoking

Online Library Chemistry A

reflections, this
book is an ideal
motivational and
practical text for
study skills and
first year
experience
courses.
