Written in English by a Japanese scholar in 1906, "The Book of Tea" is an elegant attempt to explain the philosophy of the Japanese Tea Ceremony, with its Taoist and Zen Buddhist roots, to a Western audience in clear and simple terms. One of the most widely-read English works about Japan, it had a profound influence on western undertsanding of East Asian tradition.

Tea in China explores the contours of religious and cultural transformation in traditional China from the point of view of an everyday commodity and popular beverage. The work traces the development of tea drinking from its mythical origins to the nineteenth century and examines the changes in aesthetics, ritual, science, health, and knowledge that tea brought with it. The shift in drinking habits that occurred in late medieval China cannot be understood without an appreciation of the fact that Buddhist monks were responsible for not only changing people's attitudes toward the intoxicating substance, but also the proliferation of tea drinking. Monks had enjoyed a long association with tea in South China, but it was not until Lu Yu's compilation of the Chajing (The Classic of Tea) and the spread of tea drinking by itinerant Chan monastics that tea culture became popular throughout the empire and beyond. Tea was important for maintaining long periods of meditation; it also provided inspiration for poets and profoundly affected the ways in which ideas were exchanged. Prior to the eighth century, the aristocratic drinking party had excluded monks from participating in elite culture. Over cups of tea, however, monks and literati could meet on equal footing and share in the same aesthetic values. Monks and scholars thus found common ground in the popular stimulant—one with few side effects that was easily obtainable and provided inspiration and energy for composing poetry and meditating. In addition, rituals associated with tea drinking were developed in Chan monasteries, aiding in the transformation of China's sacred landscape at the popular and elite level. Pilgrimages to monasteries that grew their own tea were essential in the spread of tea culture, and some monasteries owned vast tea plantations. By the end of the ninth century, tea was a vital component in the Chinese economy and in everyday life. Tea in China transcends the boundaries of religious studies and cultural history as it draws on a broad range of materials—poetry, histories, liturgical texts, monastic regulations—many translated or analyzed for the first time. The book will be of interest to scholars of East Asia and all those concerned with the religious dimensions of commodity culture in the premodern world.

Tea’s origin story is a mix of folklore, myths and facts. According to the Chinese literature sources, the tea was accidentally discovered in Shaanxi province (in 273? BCE) by the emperor and father of Chinese medicine, Shen Nong (???). The early use of tea was recorded in the ancient Bashu (??) area (modern Sichuan Province). As early as the Western Han Dynasty (??), drinking tea in Bashu had become more common. Tea was often offered as a tribute to the emperors and imperial families. Although the tea culture existed long before the Tang Dynasty (??), the tea was consumed in different ways. It wasn't until the appearance of the Tea Classic of Lu Yu (????) in the Tang Dynasty that the way of drinking tea was changed. The tea culture further flourished in the Song Dynasty (??). The existing Chinese tea culture (?????) represents the cultural characteristics formed during the tea drinking activities, including tea ceremony, tea virtue, tea spirit, tea book, tea set, tea painting, tea science, tea story, tea arts, and so on. Chinese tea culture combines the thoughts of Chinese Confucianism, Taoism, and Buddhism. Basically, China is the home of tea culture. The current book volume, Chinese Tea Culture, is a Chinese reading practice book. It would introduce you to the very important concepts of the Chinese tea culture, such as the tea ceremony, drinking Customs, equipment, etc. The six most famous tea types (?????), such as the Red Tea, Green Tea, White Tea, etc. are also discussed in detail.
