related with which house, planets, the planet occupying this house and the planets aspecting this house. The determination of the auspicious or inauspicious results of that house shall be done by analyzing three factors. These are house, house Lord and significators. For example if the question asked is regarding marriage in that case we shall see that which planets are there in seventh house, this house is aspected by which planets. Marriage yoga for the possibility of marriage is there or not and in addition to that the position of significator of 7th house i.e. Jupiter/Venus should be analyzed. For females the significator of 7th house is Jupiter and for males the natural significator of 7th house is Venus. By analyzing the placement, combination, and benefic or malefic impact of these planets we conclude whether auspicious yoga for the possibility of marriage is there or not. After Yoga next important factor to be considered is major or sub period, the duration of main period is a long and sub period's duration also can be 6 months or more than 2 years therefore, in order to predict the timing of an event during these 2 years the help of transit can be taken. Therefore, for predicting an event the importance of transit should be considered. Although it is a matter of long discussion to determine whether transit predictions should be made on the basis of ascendant sign or moon sign. For supporting the predictions from both, scholars have given logical and justifiable opinions. But, the conclusions that we have derived on the basis of our experience advocate that auspiciousness or inauspiciousness of the transit results of planets should be done on the basis of moon sign and what type of results i.e, which house results it shall yield would be decided on the basis of

ascendant sign. For instance if moon is positioned in 7th house and the sign of Leo is there, therefore transit of Saturn into this sign shall cause negative impact of Saturn's SADHESATI because transit of Saturn into Leo shows inauspicious results therefore there can be delay or problems in marriage and married life. Similarly what can be the results of transit of planets by considering the other important factors has been taken into account in this book. Because of lack of availability of books in the field of transit predictions this book has been written for catering the need of students of all India Federation of Astrologer's Societies Delhi. between the stars and planets that let us grasp the destiny of the individual. Aspects describe the drama of our lives--the complex configurations that influence what will happen to us over time. Sue Tompkins, a fellow of the Faculty of Astrological Studies in London, shows how to interpret aspects when doing daily astrological readings. She uses the lives of real people to plot the aspects and offers examples of every possible planetary combination. Detailing the influence of oppositions, trines and elemental trines, and cardinal, mutable, and fixed crosses, Tompkins shows how aspects provide the energy in the chart that transforms the horoscope into something symbolizing an alive and vital human being. With *Aspects in Astrology*, Tompkins provides both the novice and the experienced astrologer the evidence and concrete methods needed to grasp the vast knowledge offered to us by our horoscope.

Transits are defined as the daily motion of the planets as they travel through the zodiac in their path through the heavens. As they pass through the signs, they transit each house in a natal chart and aspect each planetary position. It is these transits that activate the chart, creating opportunities for the individual as well as potentially difficult situations. Through this advance knowledge, the individual can plan and then act or react in the most beneficial manner. This volume contains delineation for each planet as it transits each house and aspects each planet in the horoscope. In addition to major aspects (conjunction, sextile, trine, square and opposition) to the planets, the author delineates aspects involving the North and

A yod is formed when two planets that are sextile also form an inconjunct to another planet. These planets are in different signs and modes and are deeply significant, for they usually symbolize patterns in families that have lasted for generations. This is what Hamaker-Zondag discovered when she started to research the inconjunct aspect as it related to a yod. Also included in this book is a complete discussion of how the energies of unaspected planets, and planets in duet (that only aspect each other) are expressed in a person's birth chart. Hamaker-Zondag says that people with a yod are often insecure, or have trouble expressing themselves, and there is an emphasis on stalemates or unusual situations. She analyzes the background and places it in a broader perspective, including how she works with elements, modes, orbs, and other astrological factors when interpreting this aspect. All in all, this is one of the most exciting books on aspect interpretation published in recent years! Included are great case histories: you have a chance to examine the Monica Lewinsky, Linda Tripp, Kenneth Starr, Bill Clinton scenario and see it with new eyes. And Princess Diana, Prince Charles, and Prince William are not without these family patterns. The stories are profound. These aspects work in the lives of people who change the world, people who have lived the unpopular position of stalemate, delay, and social change indicated by
