Whist is a trick taking game for either 2 players or 2 teams of 2 players. Whist uses a standard 52 playing card deck with Aces high and 2s low. The trump suit changes with each deal. The objective of whist is to be the first team or player to reach 5 points. Gameplay begins with the player to the left of the dealer, with them laying down a starter card. Going clockwise, players follow suit if possible and try to out rank the cards played. If they cannot follow suit, they then may play any of their cards. The winner of the round lays down the starter card of the next round. Before gameplay can begin, a dealer must first be chosen. To do so, each player will draw a random card from a shuffled deck. The player with the lowest card becomes the dealer. The dealer then shuffles the deck and passes out all of the cards one by one to each player. The last card is flipped over to establish the trump suit for the round. The dealer is then given that card. Get your copy today by scrolling up and clicking Buy Now to get your copy today

Amidst the profound upheavals in technology, economics, and culture that mark the contemporary moment, marketing strategies have multiplied, as brand messages creep ever deeper into our private lives. In *Your Ad Here*, an engaging and timely new book, Michael Serazio investigates the rise of “guerrilla marketing” as a way of understanding increasingly covert and interactive flows of commercial persuasion. Digging through a decade of trade press coverage and interviewing dozens of agency CEOs, brand managers, and creative directors, Serazio illuminates a diverse and fascinating set of campaign examples: from the America’s Army video game to Pabst Blue Ribbon’s “hipster hijack,” from buzz agent bloggers and tweeters to The Dark Knight’s “Why So Serious?” social labyrinth. Blending rigorous analysis with eye-opening reporting and lively prose, *Your Ad Here* reveals the changing ways that commercial culture is produced today. Serazio goes behind-the-scenes with symbolic creators to appreciate the professional logic informing their work, while giving readers a glimpse into this new breed of “hidden persuaders” optimized for 21st-century media content, social patterns, and digital platforms. Ultimately, this new form of marketing adds up to a subtle, sophisticated orchestration of consumer conduct and heralds a world of advertising that pretends to have nothing to sell.
