Terry Donahue, who guided UCLA to its longest run of football glory under a single coach, died Sunday evening at his home in Newport Beach. He was 77.

The " after-hours club " is a fixture of the African American ghetto. It is a semisecret, unlicensed " spot " where " regulars " and " tourists " mingle with " hustlers " to buy and use drugs long after regular bars are closed and the party has ended for the " squares. " After-hours clubs are found in most cities, but for people outside of their particular milieu, they are formidably difficult to identify and even more difficult to access. The sociologist Terry Williams returns to the cocaine culture of Harlem in the 1980s and ' 90s with an ethnographic account of a club he calls Le Boogie Woogie. He explores the life of a cast of characters that includes regulars and bar workers, dealers and hustlers, following social interaction around the club 's active bar, with its colorful staff and owner and the " sniffers " who patronize it. In so doing, Williams delves into the world of after-hours clubs, exploring their longstanding function in the African American community as neighborhood institutions and places of autonomy for people whom mainstream society grants few spaces of freedom. He contrasts Le Boogie Woogie, which he visited in the 1990s, with a Lower East Side club, dubbed Murphy 's Bar, twenty years later to show how " cool " remains essential to those outside the margins of society even as what it means to be " cool " changes. Le Boogie Woogie is an exceptional ethnographic portrait of an underground culture and its place within a changing city.

The author finds a desperate heart beating in the abandoned buildings and empty apartments used as crack houses in New York City

" Brutally honest... a deeply extraordinary and original work. " - SEBASTIAN JUNGER. With an estimated 250,000 people killed in 15 years, the Mexican drug war is the most violent conflict in the Western world. It shows no sign of abating. In this book, Dr Teun A. Voeten analyzes the dynamics of the violence. He argues it is a new type of war called hybrid warfare: multidimensional, elusive and unpredictable, fought at different levels, with different intensities with multiple goals. The war ISIS has declared against the West is another example of hybrid warfare. Voeten interprets drug cartels as ultra-capitalist predatory corporations thriving in a neoliberal, globalized economy. They use similar branding and marketing strategies as legitimate business. He also looks at the anthropological, individual level and explains how people can become killers. Voeten compares Mexican sicarios, West African child soldiers and Western jihadis and sees the same logic of cruelty that facilitates perpetrating ' inhumane ' acts that are in fact very human.

Ellen Terry and Her Sisters by T. Edgar Pemberton. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten – or yet undiscovered gems – of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Lady Macbeth has haunted American history since the conflicts of Shakespeare s England spilled over into New England s real witch hunts. To reveal how Lady Macbeth entered American politics as an icon for the First Lady, this investigation focuses on the prominent actresses in the role, how they performed, and their effect on audiences anxious about the country s First Lady and her influence over the President - especially at times of war. Smith ably shows how the various Lady Macbeths have both reflected and shaped the image their contemporaries have of the ambitious political wife, producing parallels that converge dramatically in twentieth-century "witch hunts."

After World War II the United States faced two preeminent challenges: how to administer its responsibilities abroad as the world's strongest power, and how to manage the rising movement at home for racial justice and civil rights. The effort to contain the growing influence of the Soviet Union resulted in the Cold War, a conflict that emphasized the American commitment to freedom. The absence of that freedom for nonwhite American citizens confronted the nation's leaders with an embarrassing contradiction. Racial discrimination after 1945 was a foreign as well as a domestic problem. World War II opened the door to both the U.S. civil rights movement and the struggle of Asians and Africans abroad for independence from colonial rule. America's closest allies against the Soviet Union, however, were colonial powers whose interests had to be balanced against those of the emerging independent Third World in a multiracial, anticommunist alliance. At the same time, U.S. racial reform was essential to preserve the domestic consensus needed to sustain the Cold War struggle. The Cold War and the Color Line is the first comprehensive examination of how the Cold War intersected with the final destruction of global white supremacy. Thomas Borstelmann pays close attention to the two Souths--Southern Africa and the American South--as the primary sites of white authority's last stand. He reveals America's efforts to contain the racial polarization that threatened to unravel the anticommunist western alliance. In so doing, he recasts the history of American race relations in its true international context, one that is meaningful and relevant for our own era of globalization. Table of Contents: Preface Prologue 1. Race and Foreign Relations before 1945 2. Jim Crow's Coming Out 3. The Last Hurrah of the Old Color Line 4. Revolutions in the American South and Southern Africa 5. The Perilous Path to Equality 6. The End of the Cold War and White Supremacy Epilogue Notes Archives and Manuscript Collections Index Reviews of this book: In rich, informing detail enlivened with telling anecdote, Cornell historian Borstelmann unites under one umbrella two commonly separated strains of the U.S. post-WWII experience: our domestic political and cultural history, where the Civil Rights movement holds center stage, and our foreign policy, where the Cold War looms largest...No history could be more timely or more cogent. This densely detailed book, wide ranging in its sources, contains lessons that could play a vital role in reshaping American foreign and domestic policy. --Publishers Weekly Reviews of this book: [Borstelmann traces] the constellation of racial challenges each administration faced (focusing particularly on African affairs abroad and African American civil rights at home), rather than highlighting the crises that made headlines...By avoiding the crutch of "turning points" for storytelling convenience, he makes a convincing case that no single event can be untied from a constantly thickening web of connections among civil rights, American foreign policy, and world affairs. --Jesse Berrett, Village Voice Reviews of this book: Borstelmann...analyzes the history of white supremacy in relation to the history of the Cold War, with particular emphasis on both African Americans and Africa. In a book that makes a good supplement to Mary Dudziak's Cold War Civil Rights, he dissects the history of U.S. domestic race relations and foreign relations over the past half-century...This book provides new insights into the dynamics of American foreign policy and international affairs and will undoubtedly be a useful and welcome addition to the literature on U.S. foreign policy and race relations. Recommended. --Edward G. McCormack, Library Journal

Some vols. include supplemental journals of "such proceedings of the sessions, as, during the time they were depending, were ordered to be kept secret, and respecting which the injunction of secrecy was afterwards taken off by the order of the House."
