"Heartbroken when she lost her husband to cancer, Rosie set off from Wales with nothing but a small cart of food and equipment, funded by the rent from her little cottage. So began a five-year solo journey that would take Rosie 20,000 miles around the world in memory of the man she loved. Followed by wolves, knocked down by a bus, confronted by bears, chased by a naked man with a gun and stranded with severe frostbite, Rosie's gripping story is a rollercoaster adventure of epic proportions." -- Back cover.

From the best-selling author of *The Wind-Up Bird Chronicle* and *After Dark*, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he ’ d completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and – even more important – on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo ’ s Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs, and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, *What I Talk About When I Talk About Running* is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running.

Young Cassie Logan endures humiliation and witnesses the racism of the KKK as they embark on a cross-burning rampage, before she fully understands the importance her family attributes to having land of their own.

Peter Sagal, the host of NPR ’ s *Wait Wait...Don ’ t Tell Me!* and a popular columnist for *Runner ’ s World*, shares " commentary and reflection about running with a deeply felt personal story, this book is winning, smart, honest, and affecting. Whether you are a runner or not, it will move you " (Susan Orlean). On the verge of turning forty, Peter Sagal—brainiac Harvard grad, short bald Jew with a disposition towards heft, and a sedentary star of public radio—started running seriously. And much to his own surprise, he kept going, faster and further, running fourteen marathons and logging tens of thousands of miles on roads, sidewalks, paths, and trails all over the United States and the world, including the 2013 Boston Marathon, where he crossed the finish line moments before the bombings. In *The Incomplete Book of Running*, Sagal reflects on the trails, tracks, and routes he ’ s traveled, from the humorous absurdity of running charity races in his underwear—in St. Louis, in February—or attempting to " quiet his colon " on runs around his neighborhood—to the experience of running as a guide to visually impaired runners, and the triumphant post-bombing running of the Boston Marathon in 2014. With humor and humanity, Sagal also writes about the emotional experience of running, body image, the similarities between endurance sports and sadomasochism, the legacy of running as passed down from parent to child, and the odd but extraordinary bonds created between strangers and friends. The result is " a brilliant book about running...What Peter runs toward is strength, understanding, endurance, acceptance, faith, hope, and charity " (P.J. O ’ Rourke).

Rabbit, Run is the book that established John Updike as one of the major American novelists of his—or any other—generation. Its hero is Harry " Rabbit " Angstrom, a onetime high-school basketball star who on an impulse deserts his wife and son. He is twenty-six years old, a man-child caught in a struggle between instinct and thought, self and society, sexual gratification and family duty—even, in a sense, human hard-heartedness and divine Grace. Though his flight from home traces a zigzag of evasion, he holds to the faith that he is on the right path, an invisible line toward his own salvation as straight as a ruler ’ s edge.

In Sights is one man's journey from boyhood to manhood, ultimately finding himself in the theatre of war. It is a journey littered with colourful anecdotes that offer insight into male bonding. Few paths have included such diverse experience. From military training in the Guards Depot to Trooping the Colour, from academic failure to intelligence work in Northern Ireland; from helping Rudolf Hess out of an ambulance to being tasked with taking the Queen's portrait. He even trod on Lady Diana's toes! Tim Rees colours every experience with profound and often idiosyncratic observations that offer the reader a taste of the sometimes humorous, often arduous and, on too many occasions, brutal reality. Close friends were killed or injured aboard RFA Sir Galahad off Fitzroy in the Falklands. Historically, men have gone to war en masse. Today, only relatively few men experience war. Was war a traumatic experience? Yes. Disturbing? Yes. Has experience of war and military service had a positive effect on Tim's life? Yes. Tim says, "The positive effect is the bond of common experience I share with men with whom I served in the army, the bond is very strong and very different from civilian friendships. The bond military men share is unique. And I would argue that these bonds have historically been very important to the fabric of society and now they are being lost."
