Edition

I've been searching, and the book "came" out, but I can't find it. For example, on the amazing amazon the third edition I can buy, and I can find the fourth edition which is not for sale, or is for sale for a ludicrous cost.. Jessica Mckellar is the author, and after some Googling I found her github with the Linux Device Drivers 4 source code!, and after reading through some of the Git commits ...
