The essential collection of writings by one of the most visionary and daring philosophers of our time Since bursting sensationally into the public consciousness in 1975 with his groundbreaking work *Animal Liberation*, Peter Singer has remained one of the most provocative ethicists of the modern age. His reputation, built largely on isolated incendiary quotations and outrage-of-the-moment news coverage, has preceded him ever since. Aiming to present a more accurate and thoughtful picture of Singer's pioneering work, *Writings on an Ethical Life* features twenty-seven excerpts from some of his most lauded and controversial essays and books. The reflections on life, death, murder, vegetarianism, poverty, and ethical living found in these pages come together in a must-read collection for anyone seeking a better understanding of the issues that shape our world today. This ebook features an illustrated biography of Peter Singer, including rare photos from the author's personal collection.

Macro economics examines the events and forces that effects one's

economy but which originates from outside of one's defined geo-economic area. Macro events may be financial events such as the faltering of an economy of another country as well as non financial events such as the effects on a societies economy as a result of a major nature event such as a flood or earthquake. A chart would help outline the key factors in a macro economic society.

This book is designed in accordance with the syllabus of University of Madras for Corporate Accounting, taught in B. Com, Semester-III. Written in a simple language, the book provides right blend of theory, illustrations and exercises.
