Metric Precision Shafts | McMaster-Carr

Main dimensions in accordance with DIN ISO 14. Shaft with splines with parallel, straight flanks. Up to size 28 x 34 with six splines, from size 32 x 38 with 8 splines.

Materials The catalogue splined shafts are

Bookmark File PDF Metric Spline Shafts Din 5462

optionally available in steel C45 cold drawn or stainless steel 1.4301 cold drawn. Other materials as e.g. 42CrMo4 on request.

Splined Shafts and Splined Hubs DIN ISO

14 □ Description

Four Splines. Shafts with four splines

Bookmark File PDF Metric Spline Shafts Din 5462

work with ball spline bearings, which create relatively little friction. They're commonly found in robotic and other automated systems that require complex, fast movements. They don't transmit as much torque as shafts with six splines. All four-spline shafts are 52100 alloy steel for high strength.
