When in Book IX Satan persuades Eve to eat the fruit, Milton strikes a fascinating balance between making Satan convincing and making sure that his arguments are misleading.

A groundbreaking biography of Milton's formative years that provides a new account of the poet's political radicalization
John Milton (1608-1674) has a unique claim on literary and intellectual history as the author of both Paradise Lost, the greatest narrative poem in English, and prose defences of the execution of Charles I that influenced the French and American revolutions. Tracing Milton's literary, intellectual, and political development with unprecedented depth and understanding, Poet of Revolution is an unmatched biographical account of the formation of the mind that would go on to create Paradise Lost—but would first justify the killing of a king. Biographers of Milton have always struggled to explain how the young poet became a notorious defender of regicide and other radical ideas such as freedom of the press, religious toleration, and republicanism. In this groundbreaking intellectual biography of Milton's formative years, Nicholas McDowell draws on recent archival discoveries to reconcile at last the poet and polemicist. He charts Milton's development from his earliest days as a London schoolboy, through his university life and travels in Italy, to his emergence as a public writer during the English Civil War. At the same time, McDowell presents fresh, richly contextual readings of Milton's best-known works from this period, including the "Nativity Ode," "L'Allegro" and "Il Penseroso," Comus, and "Lycidas." Challenging biographers who claim that Milton was always a secret radical, Poet of Revolution shows how the events that provoked civil war in England combined with Milton's astonishing programme of self-education to instil the beliefs that would shape not only his political prose but also his later epic masterpiece.

William Poole recounts Milton's life as England's self-elected national poet and explains how the greatest poem of the English language came to be written. How did a blind man compose this staggeringly complex, intensely visual work? Poole explores how Milton's life and preoccupations inform the poem itself—its structure, content, and meaning.

This volume consists of fourteen original essays that showcase the latest thinking about John Milton's emergence as a popular and canonical author. Contributors consider how Milton positioned himself in relation to the book trade, contemporaneous thinkers, and intellectual movements, as well as how his works have been positioned since their first publication. The individual chapters assess Milton's reception by exploring how his authorial persona was shaped by the modes of writing in which he chose to express himself, the material forms in which his works circulated, and the ways in which his texts were re-appropriated by later writers. The Milton that emerges is one who actively fashioned his reputation by carefully selecting his modes of writing, his language of composition, and the stationers with whom he collaborated. Throughout the volume, contributors also demonstrate the profound impact Milton and his works have had on the careers of a variety of agents, from publishers, booksellers, and fellow writers to colonizers in Mexico and South America.

'Making Darkness Light is an illumination' Adam Phillips 'His sympathetic yet challenging account will undoubtedly win Milton new readers - and for that a chorus of Hallelujahs' Spectator
For most of us John Milton has been consigned to the dusty pantheon of English literature, a grim puritan, sightlessly dictating his great work to an amanuensis, removed from the real world in his contemplation of higher things. But dig a little deeper and you find an extraordinary and complicated human being. Revolutionary and apologist for regicide, writer of propaganda for Cromwell's regime, defender of the English people and passionate European, scholar and lover of music and the arts - Milton was all of these things and more. Making Darkness Light shows how these complexities and contradictions played out in Milton's fascination with oppositions - Heaven and Hell, light and dark, self and other - most famously in his epic poem Paradise Lost. It explores the way such brutal contrasts define us and obscure who we really are, as the author grapples with his own sense of identity and complex relationship with Milton. Retracing Milton's footsteps through seventeenth century London, Tuscany and the Marches, he vividly brings Milton's world to life and takes a fresh look at his key works and ideas around the nature of creativity, time and freedom of expression. He also illustrates the profound influence of Milton's work on writers from William Blake to Virginia Woolf, James Joyce to Jorge Luis Borges. This is a book about Milton, that also speaks to why we read and what happens when we choose over time to let another's life and words enter our own. It will change the way you think about Milton forever.

The first biography of Milton based on original research for 40 years, and first to take account of new thinking about 17th-century England. Milton is seen here as flawed, passionate, ruthless, and ambitious, as well as one of the most accomplished writers of the time and author of the most influential narrative poem in English.

Milton and the Making of Paradise Lost tells the story of John Milton's life as England's self-elected national poet and explains how the single greatest poem of the English language came to be written. In early 1642 Milton--an obscure private schoolmaster--promised English readers a work of literature so great that "they should not willingly let it die." Twenty-five years later, toward the end of 1667, the work he had pledged appeared in print: the epic poem Paradise Lost. In the interim, however, the poet had gone totally blind and had also become a controversial public figure--a man who had argued for the abolition of bishops, freedom of the press, the right to divorce, and the prerogative of a nation to depose and put to death an unsatisfactory ruler. These views had rendered him an outcast. William Poole devotes particular attention to Milton's personal situation: his reading and education, his ambitions and anxieties, and the way he presented himself to the world. Although always a poet first, Milton was also a theologian and civil servant, vocations that informed the composition of his masterpiece. At the emotional center of this narrative is the astounding fact that Milton lost his sight in 1652. How did a blind man compose this staggeringly complex, intensely visual work? Poole opens up the epic worlds and sweeping vistas of Milton's masterpiece to modern readers, first by exploring Milton's life and intellectual preoccupations and then by explaining the poem itself--its structure, content, and meaning.--

Born in New York in 1909, Milton Rogovin has been photographing coal miners since 1962. Men and women portrayed at a mine entrance, covered in coal dust, are barely recognizable in the accompanying photographs, where they stand in their own homes. This text presents more than 100 of these powerful images.

The argument of Delirious Milton is that Milton's creative power is drawn from a rift at the center of his consciousness over the question of creation itself. This rift forces the poet to oscillate deliriously between two incompatible perspectives, at once affirming and denying the presence of spirit in what he creates. From one perspective, the act of creation is centered in God and the purpose of art is to imitate and praise the Creator. From the other perspective, the act of creation is centered in the human, in the built environment of the modern world.
