"Seeing comes before words. The child looks and recognizes before it can speak. "But there is also another sense in which seeing comes before words. It is seeing which establishes our place in the surrounding world; we explain that world with words, but word can never undo the fact that we are surrounded by it. The relation between what we see and what we know is never settled." John Berger's *Ways of Seeing* is one of the most stimulating and the most influential books on art in any language. First published in 1972, it was based on the BBC television series about which the (London) Sunday Times critic commented: "This is an eye-opener in more ways than one: by concentrating on how we look at paintings . . . he will almost certainly change the way you look at pictures." By now he has. "Berger has the ability to cut right through the mystification of the professional art critics . . . He is a liberator of images: and once we have allowed the paintings to work on us directly, we are in a much better position to make a meaningful evaluation" -Peter Fuller, Arts Review "The influence of the series and the book . . . was enormous . . . It opened up for general attention to areas of cultural study that are now commonplace" -Geoff Dyer in *Ways of Telling*

In this series of remarkable pieces from across his career, John Berger celebrates and dissects the close links between art and society and the individual. Few writers give a more vivid and moving sense of how we make art and how art makes us. GREAT IDEAS. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched

lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

With this provocative and infinitely moving collection of essays, a preeminent critic of our time responds to the profound questions posed by the visual world. For when John Berger writes about Cubism, he writes not only of Braque, Léger, Picasso, and Gris, but of that incredible moment early in this century when the world converged around a marvelous sense of promise. When he looks at the Modigliani, he sees a man's infinite love revealed in the elongated lines of the painted figure. Ranging from the Renaissance to the conflagration of Hiroshima; from the Bosphorus to Manhattan; from the woodcarvers of a French village to Goya, Dürer, and Van Gogh; and from private experiences of love and of loss to the major political upheavals of our time, *The Sense of Sight* encourages us to see with the same breadth, courage, and moral engagement that its author does.

From Booker Prize-winning author John Berger, a collection of essays that explores the relationship of art and artists and includes examinations of the work of Brancusi, Degas, Michelangelo, and Frida Kahlo, among others. The pocket in question is a small pocket of resistance. A pocket is formed when two or more people come together in agreement. The resistance is against the inhumanity of the New World Economic Order. The people coming together are the reader, me, and those the essays are about—Rembrandt, Paleolithic cave painters, a Romanian peasant, ancient Egyptians, an expert in the loneliness of a certain hotel bedroom, dogs at dusk, a man in a radio station. And unexpectedly, our exchanges strengthen each of us in our conviction that what is happening in the world today is wrong, and that what is often said about it is a lie. I've never written a book with a greater sense of urgency. —John Berger

When he stands before Giorgione's *La Tempesta*, Booker Prize-winning author John Berger sees not only the painting but our whole notion of time, sweeping us away from a lost Eden. A photograph of a gravely joyful crowd gathered on a Prague street in November 1989 provokes reflection on the meaning of democracy and the reunion of a people with long-banished hopes and dreams. With the luminous essays in *Keeping a Rendezvous*, we are given to see the world as Berger sees it -- to explore themes suggested by the work of Jackson Pollock or J. M. W. Turner, to contemplate the wonder of Paris. Rendezvous are manifold: between critic and art, artist and subject, subject and the unknown. But most significant are the rendezvous between author and reader, as we discover our perceptions informed by Berger's eloquence and courageous moral imagination.

The writing career of Booker Prize winner John Berger—poet, storyteller, playwright, and essayist—has yielded some of the most original and compelling examinations of art and life of the past half century. In this essential volume, Geoff Dyer has brought together a rich selection of many of Berger's seminal essays. Berger's insights make it impossible to look at a painting, watch a film, or even visit a zoo in quite the same way again. The vast range of subjects he addresses, the lean beauty of his prose, and the keenness of his anger against injustice move us to view the world with a new lens of awareness. Whether he is discussing the singleminded intensity of Picasso's Guernica, the parallel violence and alienation in the art of Francis Bacon and Walt Disney, or the enigmatic silence of his own mother, what binds these pieces throughout is the depth and fury of Berger's passion, challenging us to participate, to protest, and above all, to see.

"The relation between what we see and what we know is never settled" -- so opens John Berger's revolutionary million-copy bestseller on how to look at art John Berger's *Ways of Seeing* is one of the most stimulating and the most influential books on art in any language. First published in 1972, it was based on the BBC television series about which the Sunday Times critic commented: "This is an eye-opener in more ways than one: by concentrating on how we look at paintings . . . he will almost certainly change the way you look at pictures." By now he has.

"There are no photographs which can be denied. All photographs have the status of fact. What is to be examined is in what way photography can and cannot give meaning to facts." With these words, two of our most thoughtful and eloquent interrogators of the visual offer a singular meditation on the ambiguities of what is seemingly our straightforward art form. As constructed by John Berger and the renowned Swiss photographer Jean Mohr, that theory includes images as well as words; not only analysis, but anecdote and memoir. Another *Way of Telling* explores the tension between the photographer and the photographed, between the picture and its viewers, between the filmed moment and the memories that it so resembles. Combining the moral vision of the critic and the practical engagement of the photographer, Berger and Mohr have produced a work that expands the frontiers of criticism first charged by Walter Benjamin, Roland Barthes, and Susan Sontag.

At the height of his powers, Pablo Picasso was the artist as revolutionary, breaking through the niceties of form in order to mount a direct challenge to the values of his time. At the height of his fame, he was the artist as royalty: incalculably wealthy, universally idolized—and wholly isolated. In this stunning critical assessment, John Berger—one of this century's most insightful cultural historians—trains his penetrating gaze upon this most prodigious and enigmatic painter and on the

Spanish landscape and very particular culture that shaped his life and work. Writing with a novelist's sensuous evocation of character and detail, and drawing on an erudition that embraces history, politics, and art, Berger follows Picasso from his childhood in Malaga to the Blue Period and Cubism, from the creation of Guernica to the pained etchings of his final years. He gives us the full measure of Picasso's triumphs and an unsparing reckoning of their cost—in exile, in loneliness, and in a desolation that drove him, in his last works, into an old man's furious and desperate frenzy at the beauty of what he could no longer create.

A major new work from the world's leading writer on art *Landscapes*, the companion volume to John Berger's highly acclaimed *Portraits*, explores what art tells us about ourselves. "Berger's work is an invitation to reimagine; to see in different ways," writes Tom Overton in the introduction to this volume. As a master storyteller and thinker John Berger challenges readers to rethink their every assumption about the role of creativity in our lives. In this brilliant collection of diverse pieces—essays, short stories, poems, translations—which spans a lifetime's engagement with art, John Berger reveals how he came to his own unique way of seeing. He pays homage to the writers and thinkers who influenced him, such as Walter Benjamin, Rosa Luxemburg and Bertolt Brecht. His expansive perspective takes in artistic movements and individual artists—from the Renaissance to the present—while never neglecting the social and political context of their creation. Berger pushes at the limits of art writing, demonstrating beautifully how his artist's eye makes him a storyteller in these essays, rather than a critic. With "landscape" as an animating, liberating metaphor rather than a rigid definition, this collection surveys the aesthetic landscapes that have informed, challenged and nourished John Berger's understanding of the world. *Landscapes*—alongside *Portraits*—completes a tour through the history of art that will be an intellectual benchmark for many years to come.
