After reading the user guide which seems straight forward , I decided to try the lowest speed one which is x4, on loading the disc a message came up with unsupported. I obtained a x2 disc but that came up with the same message. I am at a loss as what to try but not having any luck. I load the VHS tape, load the DVD press copy for 3 or more seconds but nothing happens.. I am 76 years of age ...

The evil Ratigan plans to kidnap the queen and replace her with a life-size toy queen through whom he will rule England; but master mouse detective Basil of Baker Street steps in to foil the plot.

This novel is based on the real life device invented by Wolfgang von Kempelen in 1770s Austria - a machine that could outwit any opponent at chess.

So how did I get myself into this situation, you ask? Simple: desperation. When you're faced with being homeless and hungry or taking off your clothes for money, the choice is easier than you'd imagine. That doesn't make it easy, though. Oh no. I hate it, in fact. There's nothing I'd like more than to quit and never go into another bar again, never hear the techno beat pulsing in my ears again, never feel the lecherous gazes of horny men again. Then, one day, I meet a man. He's in my club, front and center. He watches me do my routine, and his gaze is full of hunger. Not the kind of desire I'm used to though. It's something different. Something hotter, deeper, and more possessive. I know who he is; of course I do. Everyone knows who Dawson Kellor is. He's People Magazine's Sexiest Man alive. He's the hottest actor in Hollywood. He's the man hand-picked for the role of Rhett Butler in the long-awaited remake of Gone With the Wind. He's the kind of man who can have any woman in the entire world with a mere crook of his finger. So what's he doing looking at me like he has to have me? And how do I resist him when he looks at me with those intoxicating, changeable, quicksilver eyes? I'm a virgin, and he's an American icon of male sexuality. I'm a stripper, and he's a man used to getting anything and everything he wants. And he wants me. I know I should say no, I know he's the worst kind of player...but what my mind knows, my body and my heart may not. And then things get complicated.

The Multi-Engine Syllabus outlines a course designed to allow either a private or commercial pilot to add an airplane multi-engine land class rating to an existing certificate.

An application of differential forms for the study of some local and global aspects of the differential geometry of surfaces. Differential forms are introduced in a simple way that will make them attractive to "users" of mathematics. A brief and elementary introduction to differentiable manifolds is given so that the main theorem, namely Stokes' theorem, can be presented in its natural setting. The applications consist in developing the method of moving frames expounded by E. Cartan to study the local differential geometry of immersed surfaces in R3 as well as the intrinsic geometry of surfaces. This is then collated in the last chapter to present Chern's proof of the Gauss-Bonnet theorem for compact surfaces.

For courses in reinforced concrete. A practitioner's guide to reinforced concrete design Reinforced Concrete Design integrates current building and material codes with realistic examples to give readers a practical understanding of this field and the work of its engineers. Using a step-by-step solution format, the text takes a fundamental, active-learning approach to analyzing the design, strength, and behavior of reinforced concrete members and simple reinforced concrete structural systems. Content throughout the 9th edition conforms to the latest version of ACI-318 Code. It expands discussion of several common design elements and practice issues, and includes more end-of-chapter problems reflecting real-world design projects.

If you are majoring in the sciences, this is the statistics textbook for you. STATISTICS FOR THE SCIENCES helps you see the beauty of statistics using calculus, and contains applications directly tied to natural and physical sciences. In STATISTICS FOR THE SCIENCES, the math is at the right level, and the exercises and examples appeal to those majoring in natural and physical sciences.

With a light hand and heart, this video inspires children to explore the natural world around them. This is the story of Kristen and her vacation to a small island off the New England coast with her aunt Tracy, an artist. Aunt Tracy is creating a picture book about fairy houses' built in the woods by visiting children. As they share an island adventure, a special relationship develops, and Kristen becomes the heroine of her own story.
