Grade Level: 3-6 CCSS Level: 4-6 Making fractions make sense! This 23-lesson learning unit is packed with hundreds of sequential fraction activities featuring both computation and word problems. As the third book in a series – following Adding Fractions and Subtracting Fractions – these exercises are designed to build upon what students have already learned. From “writing reciprocals of fractions, whole numbers, and mixed numbers,” to “multiplying a proper fraction by a proper fraction,” and on to “using a banana bread recipe to multiply fractions,” the activities in this book progress from learning basic concepts to mastering an understanding of how to multiply fractions. A Post Test and Answer Key are included.

100 days of practice problems for decimals, percents, and fractions. This is not an entry level book. Students will need basic understanding of what fractions and decimals are. This book focuses on converting between fractions, decimals, and percentages. It also teaches students how to add, subtract, multiply, and divide decimals and fractions. It's a great resource for upper elementary, middle school, and early high school students (KS2, KS3).

A strong home-to-school relationship helps kids see the whole picture when it comes to math, and with Spectrum(R) Focus: Applying Fractions for grade 4, kids can get more practice converting fractions to decimals, adding and subtracting fractions, solving word problems, and more right at home. --Packed with introductions, explanations, and comprehensive assessments, the Spectrum(R) Focus series is designed to help every child meet (and exceed) expectations by offering an in-depth learning experience. This standards-based workbook doesn't just prepare them for classroom success—it helps them make real-world connections by applying fractions to everyday scenarios.
