Ultimately, Reflexercise produces homeostasis, or balance, within the Central Nervous System. This means balance within your brain. With consistent performance, you can actually train your brain to remain balanced, even during stressful or painful events. When your brain is able to maintain a state of balance, your body will follow its lead.

Keeping your body and brain in optimal shape is imperative if you want quick reflexes. Foods high in refined sugars and trans fats can make you feel sluggish. Make sure you are getting enough protein, complex carbohydrates, and healthy fats. Whole foods like nuts, fish, berries, greens, and garlic increase cognitive function.
