Sade Fourier Loyola

Sade parts are interesting, Fourier and esp. Loyola not so much (some credit for this goes to mister De Sade himself, of course). flag Like · see review Jan 14, 2009 Wendy smith rated it really liked it

Sade/Fourier/Loyola by Roland Barthes - Goodreads

The object of this book, for Barthes is not to hover over the propositions of content ordinary credited to these three men --ie, a philosophy of evil ,a utopian socialism, a mystique of obedience--but rather to consider Sade, Fourier , and Loyola as formulators, inventors of writing, wielders of a text: operator, as Barthes calls them.

In Sade/Fourier/Loyola, eminent literary theorist Roland Barthes offers a fascinating treatise on the nature of philosophical creation. Barthes examines the parallel impulses of Loyola, the Jesuit saint, Sade, the renowned and sometimes pornographic libertine philosopher, and Fourier, the utopian theorist. All three, he makes clear, have been founders of languages--Loyola, the language of divine address; Sade, the language of erotic freedom; and Fourier, the language of social perfection and ...

Sade, Fourier, Loyola (Book, 1976) [WorldCat.org]

The best, most readable book I have read by Barthes, and the best work I have read on Sade. Full of humor and insight with lots of savory biographical tidbits. The startlingly *natural* juxtaposition of Loyola, Fourier and Sade is cool and casual, not at all forced, and all the more remarkable for that.

Amazon.com: Customer reviews: Sade/ Fourier/ Loyola

Sade, the evil writer, Fourier, the great utopian, and Loyola, the saint are "logothetes," founders of languages. Barthes's notion of "text" is meant here, and not language as linguistics or a means of communication.

This textbook is an anthology of significant theoretical discussions of biography as a genre and as a literary-historical practice. Covering the 18th to the 21st centuries, the reader includes programmatic texts by authors such as Herder, Carlyle, Dilthey, Proust, Freud, Kracauer, Woolf and Bourdieu. Each text is accompanied by a commentary placing its contribution in critical context. Ideal for use in undergraduate seminars, this reader may also be of interest for academic researchers in the areas of literary studies and history aiming to get an overview of historical questions in biographical theory. This revised and updated English language edition also includes new translations of texts by J. G. Herder and Stefan Zweig, as well as an introductory discussion on the possibility of a "theory of biography". Note: Due to copyright reasons, the chapter "Sade, Fourier, Loyola [Extract] (1971)" (pp. 175-177) by Roland Barthes could not be included in the ebook.

Sade, Fourier e Ignacio de Loyola fueron clasificadores y fundadores de lenguas: la lengua del placer erotico, la lengua del bienestar social y la lengua de la interpelacion divina, respectivamente. Pero inventar signos es entrar en el terreno del significante: es practicar la escritura. Lo que Barthes propone no es una revision de las propuestas de contenido adjudicadas a estos tres autores --la filosofia del Mal, el socialismo utopico y la mistica de la obediencia-- , sino considerarlos como inventores de escritura y operadores del texto.

New Critical gathers Roland Barthes's essays on classic texts of French literature, works by La Rochefoucauld, Chateaubriand, Proust, Flaubert, Fromentin, and Loti. Like an artist sketching, Barthes in these essays is working out the more fascinating details of his larger theories. In the innocuously named "Proust and Names" and "Flaubert and Sentences," Barthes explores the relation of the author to writing that begins his transition to his later thought. In his studies of La Rochefoucauld's maxims and the illustrative plates of the Encyclopedia, Barthes reveals new vistas on common cultural artifacts, while "Where to Begin?" offers a glimpse into his own analytical processes. The concluding essays on Fromentin and Loti show the breadth of Barthes's inquiry. As a whole, the essays demonstrate both the acuity and freshness of Barthes's critical mind and the gracefulness of his own use of language.

The Nobel Prize winner's most influential and enduring political writings, newly curated and introduced by acclaimed Camus scholar Alice Kaplan. Albert Camus (1913-1960) is unsurpassed among writers for a body of work that animates the wonder and absurdity of existence. *Committed Writings* brings together, for the first time, thematically-linked essays from across Camus's writing career that reflect the scope of his political thought. This pivotal collection embodies Camus's radical and unwavering commitment to upholding human rights, resisting fascism, and creating art in the service of justice.

The Nobel Prize winner's most influential and enduring personal writings, newly curated and introduced by acclaimed Camus scholar Alice Kaplan. Albert Camus (1913-1960) is unsurpassed among writers for a body of work that animates the wonder and absurdity of existence. *Personal Writings* brings together, for the first time, thematically-linked essays from across Camus's writing career that reflect the scope and depth of his interior life. Grappling with an indifferent mother and an impoverished childhood in Algeria, an ever-present sense of exile, and an ongoing search for equilibrium, Camus's personal essays shed new light on the emotional and experiential foundations of his philosophical thought and humanize his most celebrated works.
