The Bride of Science is both the story of a life lived passionately and an intriguing rumination on the death of Romanticism and the birth of the Machine Age, offering profound insights into the seemingly irreconcilable gulf between art and science that persists to this day.

The Bride of Science: Romance, Reason, and Byron's ...

My favorite part in The Bride of Science was before he gets to the so-called 'point' and starts describing the life of Byron's daughter – it was the impossible, convoluted relationship between her parents and their fascinating, troubled personalities that interested me most.
