The theory of structuration is a social theory of the creation and reproduction of social systems that is based in the analysis of both structure and agents, without giving primacy to either. Further, in structuration theory, neither micro- nor macro-focused analysis alone is sufficient. The theory was proposed by sociologist Anthony Giddens, most significantly in The Constitution of Society, which examines phenomenology, hermeneutics, and social practices at the inseparable intersection of stru

5.0 out of 5 stars Theory of Structures. Reviewed in the United States on November 9, 2002. This is a book that every civil engineer needs as part of their library. After having studied structures about 25 years ago and with computer programs of today it is still an important book where fundamental concepts are derived and applied by hand.
