examines in detail the intersecting texts of V for Vendetta.

Subjects include the alternative dimensions of the cinematic narrative, represented in the film's conspicuous placement of the

painting The  
Lady of Shalott  
in V's home; the  
film's overt  
allusions to the  
AIDS panic of  
the 1980s; and  
the ways in  
which antecedent  
narratives such  
as Terry  
Gilliam's  
Brazil, Huxley's  
Brave New World,

and Bradbury's Fahrenheit 451 represent shadow texts frequently crossing through the overall V for Vendetta narrative.

This is a frightening and powerful story of the loss of freedom and

individuality in  
a totalitarian  
England. Written  
against a  
backdrop of  
third term  
Thatcherism and

is a work of  
startling  
clarity.
