When the first German, Huguenot, and Scotch-Irish settlers arrived in what is now Whitehall Township nearly three hundred years ago, their lives were fraught with peril. Some of the first families were nearly wiped out in raids during the French and Indian War. After the United States was established, the township settled into a long tranquil farming period, which lasted until the arrival of iron and the iron horse in the 1850s. Then, the Lehigh Valley became the cradle of the Industrial Revolution. Communities such as Egypt, Hokendauqua, Coplay, and Fullerton sprang up around iron mills, cement plants, and railroads. The new industries brought entrepreneurs, innovators, and immigrants to Whitehall and Coplay, changing the face of the township in many ways that are still visible today.

For over thirty years, two New York State brothers, Robert and Paul Bartholomew, have methodically researched, documented, and studied the Bigfoot question in both New York and the New England states.

'Backing into the Spotlight is a hilarious and an unashamedly non-PC memoir . . . Now in his eighth decade, Whitehall is a fine raconteur, gloriously unreconstructed and still deeply suspicious of modernity' Daily Mail Standing in front of a full-length mirror in my dressing room at ITV studios, waiting to go on to the set of Backchat, I had a brief conversation with my reflection. 'Michael, what the f*** do you think you're doing?' Theatrical agent Michael Whitehall spent a career pushing others into the spotlight. He had been involved behind the scenes with the careers of many prominent actors, including Colin Firth, Richard Griffiths, Daniel Day-Lewis, Tom Courtenay, Ian Ogilvy, Judi Dench, Edward Fox, Michael Fassbender, Angela Thorne and Nigel Havers. But then, much to his surprise, his son Jack becomes a successful comedian and actor and decides that his new comedy partner should be his father. Whitehall Snr. finds himself reluctantly appearing on stage and then television, cast as the archetypal grumpy old man and thrust, in his early seventies, into a whole new career in front of the camera. Minor fame comes at a sedate pace: one of the highlights being a record £300,000 win for charity with Jack on Channel 4's The Million Pound Drop. In this enchanting memoir Whitehall looks back on his life, from growing up in suburban London in the 1940s and '50s with his saintly father and social climbing-mother, who coined the phrase 'à la carte' to describe people who were posher than she was and whose company she craved, to falling into a career as a successful theatrical agent and producer. As he says, 'Actors can be egotistical, greedy and vain, but they're not half as bad as agents and producers.' Charming, gossipy and above all very funny, Backing Into The Spotlight is no ordinary show business memoir.

Whitehall and the Jews is the fullest study yet of the British response to European Jewry under the Nazis, and the first detailed account of British immigration policy toward refugee Jews. The British government always put self-interest first and sought to avoid long-term responsibility for large numbers of homeless Jews. Nonetheless, aided by the sympathy of certain officials and ministers, many Jews obtained refuge, albeit subject to severe restrictions. Louise London offers a compassionate and authoritative treatment of a subject central to the understanding of the Holocaust and Britain.

The city of Whitehall, skirting the eastern edge of Columbus, Ohio, is an undiscovered treasure of postwar America. The Lustron Corporation, based in Whitehall, lays claim to the origins of the prefabricated housing industry. The nation's first shopping center, the Town and Country, was built in the village in the late 1940s. The National Road passes through Whitehall, which helped create businesses offering

lodging, meals, and entertainment on par with those along the storied Route 66. Images of America: Whitehall also pays homage to one of the most beloved tiki restaurants ever to grace the country: the famed Kahiki. This chronicle seeks to honor the amazing history of the "City of Pride."
